-  ADA compliant
-  3-5 year warranty

\*\* EVBox Iqon requires an OCPP  
charging network in order to  
activate a charging session.

# Be impressive

Attract EV drivers with sleek and intuitive stations

Stand out.

## Award-winning design

EVBox Iqon is a fusion of form and functionality. With its sleek profile, LED light guides, and stainless steel housing, Iqon not only looks sharp, but is also durable and easily identifiable.

Stay clean.

## Built-in cable management

With built in cable retractors, charging with Iqon is easy, organized, and safe for any EV driver and station owner. No more fumbling around with unwieldy cables.

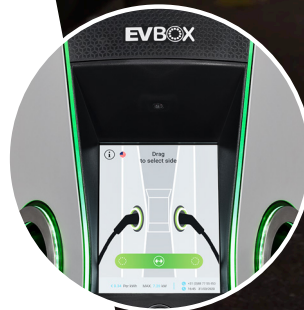

Be accessible.

## User-friendly interface

Give EV drivers a first-class charging experience with Iqon's 8" touch screen to display all your relevant charging information (pricing, usage, access info).

reddot design award  
winner 2019

# Be intelligent

Have total control of your charging stations

Improve efficiency.

## Smart charging

Load balancing, smart queueing, and demand response work better with more ports connected. With EVBox Iqon, you can connect up to 20 ports.

Be in charge.

## Adjustable pricing

With Iqon, you can configure your network to bill users based on kWh rates, time of use, or set them up to allow free access. You can even adjust the pricing during peak usage times.

Be future-proof.

## OCPP interoperability

With total interoperability, you can select whatever OCPP network provider you'd like, and change your network at any time.

Track and manage  
your stations from your  
smartphone or computer.

# Be reliable

Keep your service secure with rugged, protected hardware

Be dependable.

## Durable design

EVBox Iqon has withstood rigorous testing to demonstrate its weatherproof and shockproof structure. This means improved uptime and less maintenance, even in the harshest environments.

Get peace of mind.

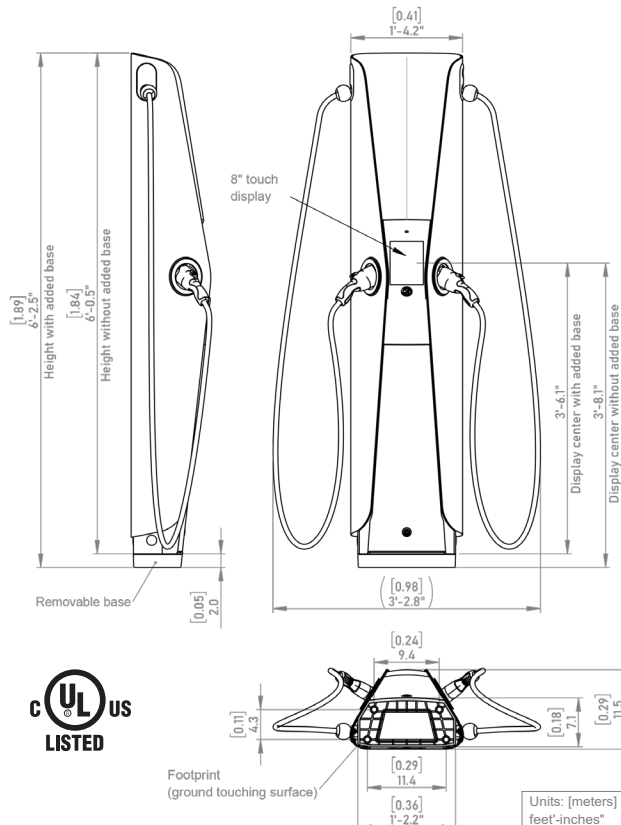

## First-class protections

Iqon comes with built-in overcurrent prevention, ensuring that the charging environment is always safe. It also comes with autolocking cable docks to prevent tampering.

Be protected.

## 3-5 Year Warranty

With a 3-year warranty (extendible up to 5), Iqon ensures that, no matter what life throws at you, your charging stations will always be protected.

# Be effortless

Make EV charging easier to install, use, and monitor

Keep it simple.

## Out-of-the-box install

One box. One piece. Wire it up, turn it on, and start charging. With user-friendly Bluetooth commissioning, setting up your new network of chargers has never been easier.

Be flexible.

## Access and connectivity options

Initiate charging sessions via RFID or QR code. And with Wi-Fi and 4G connectivity, you'll always be online, receiving real-time insights and remote upgrades/assistance.

Stay in the know.

## Integrated kWh meter

Easily track your station usage and schedule reductions in output with industry leading accuracy thanks to our revenue-grade kWh meter built into every Iqon station.

### Plant one tree for every charging port installed

At EVBox, we're on a mission towards zero emissions, and not just by accelerating the transition to electric transportation. That's why, for every EVBox charging port installed, we donate a tree to help reforest an area affected by climate change. As part of our OneChargerOneTree initiative, EVBox is partnering with several reforestation partners around the world (including OneTreePlanted) to reverse the damage done to our home. Lend a hand in helping create a greener future by choosing EVBox.
